Audio Recording & Sequencers

Have fun and try out which ever ones that suit you.. They are all usable (as far as I know). Some require a account to be set up. This is easy and safe too.

All the software here is VST & audio units instruments compatible. So go on to the other document with all the free soft synths and get making some noise!!!

Reaper

is free for user up to end of June and may go further. Full on studio audio recording and midi soft synths everything

https://www.reaper.fm

Audacity is free and does multi tracking but not MIDI so limited.

https://www.audacityteam.org

Audio Recording & Sequencers

Ardour is Free.
Full on studio audio recording
and midi soft synths
everything

https://ardour.org

AVID **Pro Tools First**
IS free, just set up an account
and an iLk account. They send
a download link.
